Are you an NP or PA? ASAM also provides the additional 16 hours required for NPs and PAs to qualify for a waiver.

Hosted by the Wisconsin Society of Addiction Medicine

The ASAM Treatment of Opioid Use Disorder Course covers the highest quality, evidence-based practices for treating patients with opioid use disorder.

The ASAM Treatment of Opioid Use Disorder Course is designed for:

- Physicians, nurse practitioners, physician assistants, and health care team members working with patients with opioid use disorder.
- Physicians, nurse practitioners, and physician assistants who wish to obtain a waiver to prescribe buprenorphine in office-based treatment of opioid use disorders.

Our case-based learning format will show you how to apply this new knowledge. You will learn how to:

- Have specific knowledge to offer treatments for patients with opioid use disorder.
- Identify and assess patients who are appropriate for treatment with medications.
- Discuss the psychiatric and medical co-morbidities associated with opioid addiction.
- Apply for a waiver to prescribe buprenorphine to patients with opioid use disorders.

Course Format

Blended: 4 hours of self-paced online plus 4 hours live provide the required 8 hours needed to obtain the waiver to prescribe buprenorphine in office-based treatment of opioid use disorders. Online portion available upon registration through the ASAM e-Learning Center.

ASAM is an approved provider by CSAT/SAMHSA of DATA 2000 training.

ACCME ACCREDITATION STATEMENT: The American Society of Addiction Medicine (ASAM) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians.
